Education

Simon Fraser University — Burnaby, BC, Canada

Bachelor of Science (BS / BSc) in ***Computing Science****, Minor in* ***Business*** — ***Expected Graduation: May 2028***

- **GPA:** 3.7, Dean's Honour Roll Fall 2024 & Spring 2025
- **Relevant Coursework:** Artificial Intelligence, Data Structures & Algorithms, Software Engineering, Databases, Statistics

Experience

Junior Data Analyst (*Co-op → Part-time*) | *Fisheries and Oceans Canada* — **Aug. 2025 - Present**

- Leading AI-driven web tools for DFO scientists, translating needs into proposals & shipped features that accelerate work
- Creating an image classification app with **Azure Custom Vision** so analysts can upload photos, train models & reuse them
- Architected a model hub for **20+ models** so teams can register, discover, & reuse ML assets through a full-stack platform
- Prototyped a PDF extraction tool that outputs key metadata & summaries via **RAG** using **FastAPI** & **LangChain**
- Built a web-scraper chatbot that turns websites into a knowledge base, indexing content in **Chroma** for fast Q&A retrieval
- Onboarded & mentored a new co-op student through PR reviews & check-ins, improving delivery speed & reducing blockers
- Drove adoption by demoing these tools to **30+** internal stakeholders and iterating features from scientist/analyst feedback
- Received an **Immediate Award** for commitment to PSSI's Data & Digital Innovation after delivering AI-powered tools

Founding Engineer / Software Developer | *Subtura* — **Aug. 2025 - Present**

- Co-building a Waterloo student subletting platform with a distributed team to improve access to affordable housing
- Shipping core features & **MVPs** with TypeScript, Tailwind CSS, and **Supabase**, improving quality and user usability
- Supporting growth & expansion backed by **$10K** in early funding, with a roadmap to scale Subtura to more universities

Software Developer | *CaseComp* — **June 2025 - Present**

- Developing **CaseComp**, a platform that helps students discover case competitions and helps organizers host them
- Collaborating with **10+** stakeholders to turn requirements into features, improving organizer & participant workflows
- Hosting SFU & UBC competitions, supporting BC's **2nd-largest** high school case comp, & expanding across North America

Software Developer | *SFU Surge* — **Jan. 2025 - Apr. 2025**

- Published a career web app that generates tailored resumes, powers job search, & scores resume-to-job fit with suggestions
- Implemented core workflows with OpenAI API + JSearch API, and built the UI in **React, Tailwind,** & **ShadCN UI**
- Presented at the **SFU Surge Incubator Competition** and placed **3rd**, shipping a polished mobile-friendly experience

Frontend Developer | *CJSF 90.1FM Radio* — **Apr. 2024 - Aug. 2024**

- Modernized the CJSF radio station website to improve usability and meet **WCAG** accessibility standards in an **Agile** team
- Integrated **Headless Drupal** with **Next.js** to deliver CMS-managed pages & components for **1,000+** monthly visitors
- Worked with station staff & developers to prototype website layouts & workflows using **Figma**, increasing donations by **20%**

Selected Projects

PrepMate | *Next.js, TypeScript, Firebase/Firestore, Tailwind CSS, Vercel, Vapi SDK* — **Oct. 2025**

- Engineered an **AI voice interview assistant** that runs adaptive mock interviews & delivers personalized coaching feedback
- Integrated **Vapi** voice streaming and **Firebase** session tracking in a Next.js + TypeScript app, deployed on **Vercel**

Tech Notes | *Node.js, Express.js, MongoDB, React, Redux Toolkit, JWT* — **June 2025**

- Launched a **full-stack notes & tasks app** that lets users create, organize, & search entries with **CRUD** workflows
- Enforced secure login and protected routes with JWT auth, plus predictable client state management using Redux Toolkit

Technical Skills

Languages: JavaScript, TypeScript, Python, C, C++, SQL, HTML5, CSS3, Bash

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS, ShadCN UI, NumPy, Pandas, Matplotlib, Flask

Databases & Tools: MySQL, MongoDB, Git, GitHub, Docker, Linux, CI/CD, Virtual Machines, VS Code, Postman, Crawl4AI

APIs: OpenAI, Gemini, Vapi SDK, Stripe, PayPal, OpenWeatherMap, JSearch, yfinance, FMP, Azure SDKs

Cloud & ML: Azure Blob Storage, Azure ML Workspace, Azure Container Registry/Apps, MLflow, n8n, Power Automate, Power Platform, Power BI, Power Apps, OneDrive, SharePoint, Microsoft Copilot Studio, Excel
