EDUCATION

Simon Fraser University

Burnaby, BC, Canada

*Bachelor of Science (BS / BSc) in **Computing Science**, Minor in **Business***

Expected Graduation: May 2028

- **GPA:** 3.7, Dean's Honour Roll Fall 2024 & Spring 2025
- **Relevant Coursework:** Artificial Intelligence, Data Structures & Algorithms, Software Engineering, Databases, Statistics

EXPERIENCE

Machine Learning & Cybersecurity Research Assistant | *Simon Fraser University* **Apr. 2026 - Present**

- Researching ML & cybersecurity methods for SOCcer, a RAG-based SOC copilot for evidence-driven alert triage
- Studying AI agents, **GraphRAG**, MITRE ATT&CK, and cyber threat intelligence to improve security reasoning workflows
- Exploring **hypothesis-driven** playbook generation that helps analysts compare benign and malicious alert explanations

Founding Engineer / Software Developer | *Subtura* **🌐 Aug. 2025 - Present**

- Co-building a Waterloo student subletting platform with a distributed team to improve access to affordable housing
- Shipping core features & **MVPs** with TypeScript, Tailwind CSS, and **Supabase**, improving quality and user usability
- Establishing early partnerships with housing companies including **Accommod8u**, **HRS**, **110 University**, and **KW**
- Supporting growth & expansion backed by **\$10K** in early funding, with a roadmap to scale Subtura to more universities

Software Developer (*Co-op* → *Part-time*) | *Fisheries and Oceans Canada* **🌐 Aug. 2025 - Apr. 2026**

- Led AI-driven web tools for DFO scientists, translating needs into proposals & shipped features that accelerate work
- Created an image classification app with **Azure Custom Vision** so analysts can upload photos, train models & reuse them
- Architected a model hub for **20+ models** so teams can register, discover, & reuse ML assets through a full-stack platform
- Prototyped a PDF extraction tool that outputs key metadata & summaries via **RAG** using **FastAPI** & **LangChain**
- Built a web-scraper chatbot that turns websites into a knowledge base, indexing content in **Chroma** for fast Q&A retrieval
- Onboarded & mentored a new co-op student through PR reviews & check-ins, improving delivery speed & reducing blockers
- Drove adoption by demoing these tools to **30+** internal stakeholders and iterating features from scientist/analyst feedback
- Received an **Immediate Award** for commitment to PSSSI's Data & Digital Innovation after delivering AI-powered tools

Software Developer | *CaseComp* **🌐 May 2025 - Dec 2025**

- Developed **CaseComp**, a platform that helps students discover case competitions and helps organizers host them
- Collaborated with **10+** stakeholders to turn requirements into features, improving organizer & participant workflows
- Hosted SFU & UBC competitions, supporting BC's **2nd-largest** high school case comp, & expanding across North America

Software Developer | *SFU Surge* **🌐 Jan. 2025 - Apr. 2025**

- Published a career web app that generates tailored resumes, powers job search, & scores resume-to-job fit with suggestions
- Implemented core workflows with OpenAI API + JSearch API, and built the UI in **React**, **Tailwind**, & **ShadCN UI**
- Presented at the **SFU Surge Incubator Competition** and placed **3rd**, shipping a polished mobile-friendly experience

SELECTED PROJECTS

PrepMate | *Next.js, TypeScript, Firebase/Firestore, Tailwind CSS, Vercel, Vapi SDK* **🌐 🌐 Oct. 2025**

- Engineered an **AI voice interview assistant** that runs adaptive mock interviews & delivers personalized coaching feedback
- Integrated **Vapi** voice streaming and **Firebase** session tracking in a Next.js + TypeScript app, deployed on **Vercel**

Tech Notes | *Node.js, Express.js, MongoDB, React, Redux Toolkit, JWT* **🌐 🌐 June 2025**

- Launched a **full-stack notes & tasks app** that lets users create, organize, & search entries with **CRUD** workflows
- Enforced secure login and protected routes with JWT auth, plus predictable client state management using Redux Toolkit

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C, C++, SQL, HTML5, CSS3, Bash

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS, ShadCN UI, NumPy, Pandas, Matplotlib, Flask

Databases & Tools: MySQL, MongoDB, Git, GitHub, Docker, Linux, CI/CD, Virtual Machines, VS Code, Postman, Crawl4AI

APIs: OpenAI, Gemini, Vapi SDK, Stripe, PayPal, OpenWeatherMap, JSearch, yfinance, FMP, Azure SDKs

Cloud & ML: Azure Blob Storage, Azure ML Workspace, Azure Container Registry/Apps, MLflow, n8n, Power Automate, Power Platform, Power BI, Power Apps, OneDrive, SharePoint, Microsoft Copilot Studio, Excel
